USE WPC.
Save trees. Save earth.

“10 liters of water are required to produce 1 sheet of A4 paper.
Several papers are used to make one conventional HPL (high pressure laminate).
“PVC HPL” saves water, paper, wood... and thus nature.”

WPC CENTRE[®]

wpc materials & projects

From the alma mater of HARDY SMITH, India, we operate for wood polymer composite sector since 2011. Since inception WPC has been a focus sector and we are serving for WPC technology and WPC products in India and abroad. We promote, educate, make, consult, design and install machines and products.

We are on a mission 'Save trees. Save Earth.' and we do it by saving 'natural wood and thus forests'. Our sole purpose is to protect nature by developing and promoting 'substitute products' of wood. Thus we do WPC sheets, WPC Doors, WPC Door frames, WPC Floors, WPC Wall clads, WPC fencing, WPC pergolas...

and now PVC HPL & PVC MARBLES. A unique product replacing conventional HPL and Veneer. Products are 100% water proof and termite proof. Let us join hands for this mission.

water proof surfaces
for interior needs.
